An NFL draft chart is a tool used by teams to assign a point value to each draft pick. The chart is designed to help teams compare the value of different picks and make informed decisions during the draft. The most commonly used chart was created by Jimmy Johnson, a former NFL coach, in the 1990s. The chart assigns a point value to each pick based on its position in the draft, with earlier picks worth more points than later ones. Over the years, the value of draft picks has fluctuated due to various factors, including changes in the NFL's collective bargaining agreement, the rise of free agency, and shifts in team building strategies. In the past, teams were more likely to prioritize drafting players over signing free agents. However, with the increasing importance of free agency, teams have become more strategic in their draft decisions. As a result, the value of mid-round picks has increased, while the value of late-round
